UI Components:
- - Main menu app icon design
- - New user
    - -Sign Up button
        - Name (put full name)
        - Email (for recovery)
        - Password
    - Register button
- - Registered user
    - -Login button
        - Name
        - Password
    - Submit button
- - Settings/hamburger button
    - Password
    - Name
    - Logout

Side note we'll have to do a couple of color swatches for the color design. Also, need to have the option for the home button to be available at all times for the app.

What is the color palette going to be?
